

Environment and organisms - Task #409

Effect of sampling on GAM: hold out proportions and sampling observations

05/01/2012 02:16 PM - Benoit Parmentier

Status:	New	Start date:	05/01/2012
Priority:	Normal	Due date:	
Assignee:	Benoit Parmentier	% Done:	0%
Category:	Climate	Estimated time:	40.00 hours
Target version:			
Activity type:	Coding/analysis		
Description			
This task examines the effect of the sampling and hold out proportions on tmax predictions. This task will help in determining if the modeling results are stable when sampling locations and hold out proportions are changed.
