

BIEN 3 - Task #452

add column-based import to automated testing

07/30/2012 06:46 PM - Aaron Marcuse-Kubitza

Status:	Resolved	Start date:	07/30/2012
Priority:	Normal	Due date:	
Assignee:	Aaron Marcuse-Kubitza	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:			
Activity type:			
Description			
<ul style="list-style-type: none">• Use row-based accepted test outputs (*.ref) as accepted outputs, to ensure row-based and column-based import produce the same result<ul style="list-style-type: none">◦ These outputs currently differ for make inputs/SALVIAS-CSV/test/import.organisms.out by_col=1 in the inserted row count<ul style="list-style-type: none">▪ However, the database contents differ by much more, so other tests are likely also affected▪ Note that all XML functions would need to be translated to SQL functions to help the two algorithms return the same result◦ XAL and CTFS would also need staging tables, so that they are handled by column-based import with the same accepted test outputs as row-based import
