- % Done changed from 0 to 80   *2/2*

All XPaths have been reversed. However, CTFS's two test rows needed to be disabled because they require a transformation of the new mappings with certain prefixes moved to the root, which has not yet been developed.

#17 - 08/28/2012 06:31 PM - Aaron Marcuse-Kubitza

- Status changed from New to Resolved

- % Done changed from 80 to 100

     CTFS's two test rows needed to be disabled because they require a transformation of the new mappings

CTFS is being mapped using a different method, so these mappings are not needed
