

BIEN 3 - Task #471

add make actions so new dependent maps are rebuilt automatically when their source map changes

08/09/2012 11:59 AM - Aaron Marcuse-Kubitza

Status:	Resolved	Start date:	08/09/2012
Priority:	Normal	Due date:

Activity type:			
Description			
<ul style="list-style-type: none">• Currently, you have to run make mappings/ in addition to make test after any mappings changes• Before VegCSV, it was possible to just run make test and have all core maps automatically remade• This problem is due to the VegCSV non-derived map not yet being used by any datasources (only the derived maps are used) Because the derived maps are symlinks rather than make targets, make never touches the non-derived map and doesn't run its recipe			

History

#1 - 08/10/2012 05:06 PM - Aaron Marcuse-Kubitza

- Description updated

#2 - 08/28/2012 06:30 PM - Aaron Marcuse-Kubitza

- Status changed from New to Resolved

- % Done changed from 0 to 100

This appears to be fixed now that the primary map refactoring is done and the symlinks are gone
