

BIEN 3 - Task #483

rename staging table columns according to map.csv

08/29/2012 04:16 PM - Aaron Marcuse-Kubitza

Status:	Resolved	Start date:	08/29/2012
Priority:	Normal	Due date:	
Assignee:	Aaron Marcuse-Kubitza	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:			
Activity type:			
Description			
<ul style="list-style-type: none">This will allow us to have just one VegCore-VegBIEN mapping, with each staging table already using VegCore column names			

History

#1 - 08/31/2012 02:08 PM - Aaron Marcuse-Kubitza

- Status changed from New to Rejected

Reinstalling staging tables whenever a mapping changes is not a good idea.
Renaming will instead continue to occur during the VegBIEN import, or eventually the [VegSQL](#) import.

#2 - 09/10/2014 03:56 PM - Aaron Marcuse-Kubitza

- Status changed from Rejected to Resolved

- % Done changed from 0 to 100

this was later implemented in a way that avoids needing to reinstall the staging tables
