

BIEN 3 - Task #831

make tests use their own public schema

12/03/2013 01:21 AM - Aaron Marcuse-Kubitza

Status:	New	Start date:	12/03/2013
Priority:	High	Due date:	
Assignee:	Aaron Marcuse-Kubitza	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Activity type:			
Description			
<ul style="list-style-type: none">• enables the automated tests to be run on vegbiendev• allows adding a new datasource directly on vegbiendev, without a dependency on a separate testing DB to run the automated tests<ul style="list-style-type: none">◦ this makes it much easier for a documentation tester or other BIEN members to add datasources, since they do not need to use a separate testing DB• makes it possible to upload a new datasource from a web interface (which can just use vegbiendev)• however, this does not remove the need to maintain two copies of the VegBIEN DB and keep them in sync, because the test DB is useful for preventing buggy commands from breaking the live DB
